Lots 1143-1987

DONALD L. PARSLEY, P.E.

Consulting Engineer
Indian Head, Md.

You ask if I could put down in words why I collect coins. I've thought about it and I guess I have a lot of the same reasons as everyone else. It's been an investment, but since filling that last hole in a circulated Lincoln Folder many years ago, it's been the challenge of learning as much as I could about the coin I held in my hand. It's turned into a love of the beauty of the artistic quality and history of the coins. Oh, I have never lost the lure of finding a "keeper" but of necessity, the search has turned toward finding a rare die variety acquired at the price of a common variety.

But you know even that isn't as important as it used to be. To me it is a diversion, a hobby, the enjoyment of friendly people, an investment and an education. In addition to the history you can learn about in books, most of the pieces in my collection have the additional history of how, when and where I acquire them.

Lot No. 1143

**COMPLETE SET OF TWENTY CENT PIECES, INCLUDING THE FAMOUS
EXTREMELY RARE
1876-CC**

1143 1875-78. Complete seven piece set, the four Philadelphia coins proofs, the branch mints uncirculated, mounted in a custom plastic holder. In detail:

1875. Brilliant Proof, from the early die state with long curved lines near and through head.

1875-S. Reverse same die previously used on the proofs, with the line from leaf point to final S; different obv. die. Brilliant frosty Uncirculated average strike, not well up in centers or on top of wing as left; the striations in centers were on the strip from which this blank was cut out. Touches of russet tone.

1875-CC. Brilliant Uncirculated, few minute bag marks, top of wing flat at D S as struck, nearly full head, almost full breast.

1876. Hollow places in wings where they join body, as in Hirt:1190. Brilliant Proof, faint hairlines.

1876-CC. Double LIBERTY, same dies as all other 1876-CC's known to date. Brilliant frosty Uncirculated, light gold tone, few minute bag marks, including a curved one in field r. of 3rd and 4th stars, and a tiny rim nick between 9th and 10th. Rev. Somewhat more Proof-Like than frosty, as usual on this date; breast only partly up, top of wing at left not up, again as usual. Minute rim nick opposite left star, another outside dentils between final A and star, these totally inconsequential and mentioned only for future identification of this piece. Cluster of tiny spots at TW and adjacent wing tip; another just above top leaf. *Without earlier auction history; believed one of the four discovered in Maryland in the mid 1950's which raised the count from 10 to 14, where it has remained for twenty years. In estimating a value, remember that the Kern- Hydeman - Flynn - Cham-pa - Tebo coin brought \$45,000 in the 1975 ANA Convention sale; the Knapp - Neil - Pelletreau - Wolfson - Miles coin has not been auctioned recently enough to mean anything, nor have the Cass-"Empire" or WGC or Atwater or B. Frank pieces.*

1877. Brilliant Proof, light hairlines; one of only 350 minted, some of which — possibly over 100 — were melted in 1878, when the denomination was abolished.

1878. Brilliant Proof, few minute contact marks, light hairlines, acquiring a pleasing golden and honey colored tone. One of 760 minted, of which probably over 300 were melted June 29, 1878 (the total was 450 mixed dates, mostly 1877-78). One of the most important of American silver coins.

COMPLETE SET OF TWENTY-CENT PIECES

- 1144 **Exceptional Set Six Pieces** (minus the 76-CC). With pleasure we describe each piece.
1875-P: **Brilliant Proof-60+**, faint hairlines, but clearly superior to most surviving proofs. 1875-S; **Superbly Toned Choice Unc.-60++**. Gorgeous brown hues, slightly soft strike, otherwise **Gem-65**. 1875-CC: **Unc.-60**, unusually bold and complete strike! No rubbing. 1876-P: **Gem Unc.-65**, superb satiny-smooth fields, wonderful lavender toning, darker brown on eagle's lower left wing. 1877 & 78: **Brilliant Proof-60's**, the 77 a bit nicer. Hairlines noticeable under glass, still above average for these notoriously poorly preserved issues. Truly a connoisseur serving to the alert collector or investor.
- 1145 **Choice AU 4-Piece Set Twenty Cents**: Excellent lot of very nice AU's, showing only slight rubbing or friction. All details are **sharp, plenty of luster is apparent**. Specifics: 75-P AU-50+, semi-P-L; 75-S AU-50 sharp, nice fields; 75-CC AU-55, as bold strike as we have seen; 76-P beautiful, borderline Unc.
- 1146 1875 AU-50+. Extremely sharp. At first glance, appears "BU". Upon more careful inspection, evidence of light cleaning.
- 1147 1875 **Brilliant Proof-60+**. Light Hairlines, still quite above average.
- 1148 1875-CC, AU-50: Brilliant, usual weak strike, but full stars. Really attractive.
- 1149 1875-CC Wholesome EF, but obv. "W" scratch.
- 1150 1875-CC Very Fine, fairly sharp but "whizzed" to resemble higher grade.
- 1151 1875-S **Choice Borderline Unc.-55+**. Faint obv. field friction prevents full Mint State, though as sharp as many seen GEMS. Interesting die breaks under inside left wing, tiny face scratch. ANACS #B3452. Worth \$700-up. **PLATE**
- 1152 1875-S About Uncirculated, quite sharp, deep golden toning.
- 1153 1875-S About Uncirculated, rev. bit sharper than obv., some luster.
- 1154 1875-S Choice EF-45. Excellent type piece, sharp, lustrous, no problems.
- 1155 1876 **Proof-60**. Lt. cleaning, though now nicely toned. **PLATE**
- 1156 1876 **Nice Brilliant Proof-60**. Lt. obv. hairlines, rev. Choice! **PLATE**
- 1157 1876 **Choice AU-55**. Nice, but friction prevents Unc. Perhaps to be re-offered as "BU", it is that appealing and sharp. **PLATE**
- 1158 1876-P Nice AU-50. Soft peripheral brown toning, light rubbing and tiny handling marks, sharp. Scarce date.

Lot No. 1159

- 1159 1877 **Br. Proof-60**. Lt. hairlines, still nice and RARE. Minted only in Proof (510), many of which were melted.

KEEP INFORMED ●●● ORDER PRICE LIST ON BID SHEET

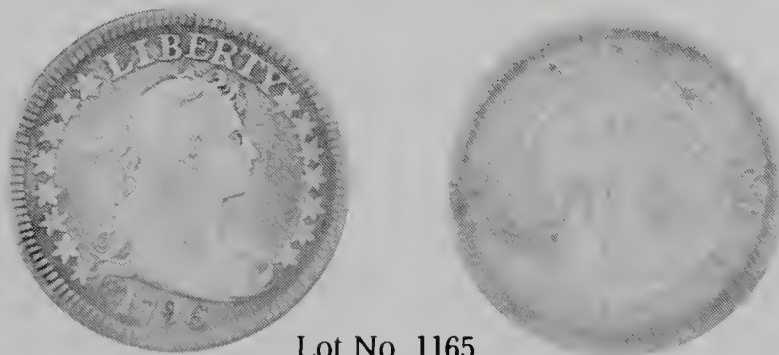

- 1160 20¢ 1878 Choice Toned Proof-65. Far & away, superior to most survivors! Lovely pale pink toning, only the faintest of hairlines from full Gem. Many of the 600 mintage melted. Worth at least \$1,500-up
- 1161 1878 Br. Proof-60. Signs of old Lt. cleaning and hairlines. But curiously about average quality for this rare date. **PLATE**
- 1162 20¢ 1875 Trial strike in White metal for a rejected die, J1406. Plain Edge. R8. Heavy toning on knee of Liberty, rough surfaces. Rare.
- 1163 **QUARTER TYPE SET:** 1805 VF; 1834 EF+; 1876 Ch. AU; 1909-D Ch. AU; 1917-D T-1 Ch. Unc.; 1920 Ch. AU; 1932 AU; 1965 AU. **8 pcs.** in lucite holder.

Lot No. 1164

LOVELY AU 1796 SMALL EAGLE QUARTER

- 1164 1796 Draped Bust right, small eagle, Browning 2, the regularly seen High 6 variety, tops of TY not touching. BEAUTIFUL AU-50, considerable highlights of mint brilliance throughout the evenly toned brown surfaces. Very handsomely preserved, typically weak eagle's head. The first quarter piece, only year of type. ENORMOUSLY DEMANDED.

Lot No. 1165

- 1165 1796, Browning 1, VG-10. Distinguishable from "commoner" B-2. Tops of TY touch, 6 in date quite free of drapery, last lower right star almost touches bust, irregularly spaced date. **AT LEAST 7 TIMES RARER THAN B-1**, though widely unrecognized (much of the demand emanates from type collectors.) Obv. decent, but long vertical rev. scratch. (2,000-up)
- 1166 1796 B-2, Good-4, obv. nears VG, rev. worn into half letters, some right feather detail. Loop repairing right of date, and left of OF. Still, quite acceptable for type. **PLATE**
- 1167 1804 about Fine (rev. sharper than obv.) Admirable specimen of RARE issue. Full rims, nearly full motto, minimum handling marks. Still UNDERVALUED. **PLATE**
- 1168 1805 Fair; 06 Good; 07 Fair

- 1169 1806 B-3. Defective 1, I & T; rev. 25 C. free of devices. **Brilliant, golden toned, frosty**, evidently never in circulation though rather flatly struck in centers as usual for this date (still sharper struck than most) but there are two small patches (behind ribbon and at lower r. Obv. border) where minor repairs (rub spots) may have been done, plus a possible third at r. wingtip. Better than some "Unc" seen offered, Rare in mint state.

Lot No. 1170

- 1170 1806 BEAUTIFULLY CHOICE AU-50+. Mint luster reflects under the wonderful greyish-pink toning. Struck superior to most 1806's seen. A damage-free DELIGHTFUL coin!
- 1171 1806 & 1807, each nice, clean Very Good-8's.
- 1172 1806 VG-8, 1828 VF, 1834 Fine; 1845 EF; **Lot 4**
- 1173 1815 Nice toned sharp VF & 1831, Nice About Uncirculated-50
- 1174 1821 EF-45, very sharp, clean coin; , some luster. Excellent for type.

Lot No. 1175

EXTREMELY RARE AND FAMOUS 1827 ORIGINAL QUARTER

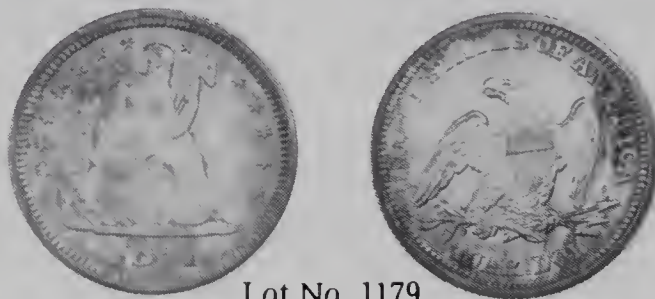

- 1175 1827 Browning 1, rev. of 1828: curve based 2, I in motto below T at right. Brilliant Proof, cleaned long ago. One of probably 12 made, though fewer than that are now known to survive. One of the most famous of American silver rarities. The story has long been familiar about how J. J. Mickley obtained the first four ever recorded as his change for a Spanish or Mexican dollar; what is not so clear is where the others were in the intervening years. Be that as it may, no fact, nor absence of fact could compromise the rarity or desirability of this coin, the high point of an American silver collection.

We append here, as has become traditional in offerings of this great rarity, a list of the known examples; this differs from any hitherto published and is believed to be more nearly correct.

- 1) Smithsonian Institution, from the Mint collection; doubtless among the coins bestowed on the collection by Adam Eckfeldt in 1838. Cleaned proof.
- 2) Mint, 1827, J. J. Mickley, Rev. Joseph Finotti (1862), G.F. Seavey, Lorin G. Parmelee, Col. E. H. R. Green, B. G. Johnson, J. A. Stack estate, \$50,000, Paramount. Pictured in Seavey (1873), Parmelee (1890) and Browning. Cleaned proof.
- 3) Mint, 1827, J. J. Mickley, John F. McCoy (1864), Heman Ely, G. W. Massamore, Thomas Cleneay, J. G. Mills, W. B. Wetmore, Waldo Newcomer, B. Max Mehl, A. J. Allen, George H. Hall (pvt. sale), Clinton Hester, Jerome Kern (with the restrike and the proof 1823), New Netherlands, Wayte Raymond estate, New Netherlands 49th sale, D. N. for the TAD collection, 1976 ANA Convention sale as lot 962, \$35,000. Pictured in Cleneay, Mills, Wetmore, NN 49, and 1976 ANA. Proof, light cucumber-shaped discoloration in right obv. field.
- 4) Mint, 1827, J. J. Mickley, G. F. Seavey (1863), Joseph N. T. Levick, Woodward Oct. 1864 sale, Dr. Frank Smith Edwards, Lewis White (E. Cogan, April 1876), R. Coulton Davis, unknown intermediates, Charles M. Williams, Adolphe Menjou, King Farouk, N.Y. state coll., badly stained, cleaned for Farouk, Pictured in Davis, Menjou and Farouk catalogues.
- 5) Mint, 1827, J. J. Mickley, Mickley sale (1867), in set with dime and half dollar, J. P. Reichardt, Reichardt family (name changed spelling to Reakirt), Joseph P. Reakirt, Lt. Jay P. Reakirt, Columbus (Ga.) Stamp & Coin Co., 1962, Mrs. R. Henry Norweb. Brilliant proof, all stars show centers — sharpest strike of all.
- 6) H. O. Granberg (before 1913), William H. Woodin, Dr. Owens, Yale University, unnamed thieves. Pictured in ANS 1914 Exhibition catalogue. Probably has been drastically cleaned to prevent identification.
- 7) F. C. C. Boyd (before 1940), W. W. Neil, F. S. Guggenheimer, R. L. Miles, Speir sale (March 1974), R. L. Hughes. Pictured in WGC, Neil, Guggenheimer, Miles and Speir catalogues. Cleaned proof. **The present coin.**
- 8) John H. Clapp at an unknown date before 1941, Stack's, Louis Eliasberg collection, Very Fine plus.
- 9) Sr. Alvarez, Jerry Cohen ca. 1972, "Quality Sales" Sept. 1973, \$28,000, Stack's for an unidentified client. Proof, plain rim nick almost midway between 8th and 9th stars; top rev. border broader and top and bottom obv. borders much less well struck than on the Yale coin.

A brief study of comparative rarities may be of interest, considering only date and mintmarks of regular U.S. silver coins. The 1827 quarter, by actual head count, is at least four times as rare as the 1802 half dime; it is exactly as rare as the 1894-S dime; it is $1\frac{1}{2}$ times as rare as the 1876-CC 20¢ piece; we have no head count on the 1873-CC quarter without arrows, but that is its only other possible rival in this denomination. It is appreciably rarer than the 1838-O half dollar, though exceeded by the 1853-O no arrows; it is in the same rarity class with the original 1804 dollar, if one stretches a point and calls the latter a "regular" issue; it is exactly as rare as the 1884 Trade and almost as rare as the 1885, if one were similarly to stretch a point for these. It is, however, more desirable than the mentioned dollars and Trades, as it has been from the beginning without any hint of controversy or moral taint; nobody has had to lie about it any time, it has continued to be a high point of collections of regular and proof coins for over 115 years without needing to be artificially touted. The present coin is an old favorite, ever since our old friend Fred Boyd owned it; it needs no higher recommendation. It is thus with the utmost pride that we present this Original 1827.

- 1176 1831 very pretty choice AU-55, gorgeous green and pink tone, the rev. **virtually Mint State**, 2 tiny rim nicks. **TRULY SPLENDID!**
- 1177 1842-O (LD) Dark iridescently toned Unc., nicely struck for "O" mint. Nice head and stars. Very high left mint mark almost touches feather. Worth (400-500) **PLATE**
- 1178 1850-O Scarce "o" mint that seldom comes up. Bag marks but a nice AU-50+ luster Worth (200-300)

Lot No. 1179

- 1179 1851 **Uncirculated**, blue-rose iridescent toning over nice surfaces. Scarce so nicely struck. **Full stars**. Couple obv. Bag marks, sharp struck! Scarce this nice. Worth (500-600)

Lot No. 1180

1853 OVER 1854 QUARTER - DISCOVERY SPECIMEN

- 1180 Lot 78 of 11/75 Pine Tree Auction described by Walter Breen "UNPUBLISHED, UNHEARD-OF OVERDATE 1853 over 1854 ARROWS AND RAYS (1853)!!

"1853 OVER 1854. *Traces of both extra arrows and 854 of a regular 1854 date logotype first punched into this die blank, then heavily repunched with the 1853 date logotype with its accompanying arrows (apparently in all three years the arrows were part of the date logotype). Upper left loop of first 8 at left of final 8, inner right curves of both loops visible within 8; part of a differently shaped 5 at left of 5; over half of upright and part of diagonal of 4 shows at left of 3 and within, part of crosslet of 4 shows at r. of 3 just below center, shaft of differently placed arrow shows above right arrowshaft. About Uncirculated Plus, Some Claims To Borderline Unc. grade; obv. with beautiful warm sunset tones (reds, oranges, goldens) rev. pale gray and struck from a heavily clashed and crumpled die. UNPUBLISHED, UNHEARD-OF. AT PRESENT UNIQUE, though several hundred 1853 arrows quarters have been examined since this was discovered (Aug. 1975), in a vain attempt to find a duplicate. The explanation for this unprecedented type of overdate is apparently that in the fall of 1853 the Engraving Department (i.e. J. B. Longacre and an assistant) had to make obverse dies for both 1853 and 1854 quarters, and someone gave this particular die blank one blow with an 1854 logotype, found that it should have been 1853, and decided to correct the error in the manner above mentioned."*

After spirited bidding, dealer Julian Liedman succeeded in capturing it at the winning bid of \$2,000; A. M. Kagin, after contacting a client, acquired it for him at \$3,000.00. It has now been consigned to the sale along with the balance of his collection. The Guidebook now lists it but without any price. Several additional specimens have since been discovered but **ALL WE HAVE SEEN HAVE BEEN FROM LATER DIE STATES-NONE SHOW THE UNDERLYING 854 AS SHARPLY AS THIS SPECIMEN!** Almost all have only faint traces making it extremely difficult to identify them as overdates.

1181 1853 A/R VF; 54 VF-EF; 76-CC VF; '08-D EF-AU; 1917-type 1 EF; '30-S Sharp AU. Lot 6

1182 1853 Arrows-Rays; 1854 Arrows, each EF-40 (cleaned)

1183 1853 Arrows-Rays Extremely Fine; 1854 Arrows, sharp Extremely Fine (both cleaned)

Lot No. 1184

1184 1855-S **Choice!** Only rub away from **Choice Uncirculated!** Lovely iridescent golden toning with virtually full luster and cartwheel, **SHARPLY STRUCK!** Naturally, obtained as "Choice Uncirculated" at a healthy four figures. Perhaps we are being a bit severe in the grading of this beauty — examine it and judge for yourself. Classic rarity in Mint State. Superior to J. A. Stack and 1976 ANA specimens

1185 1856-58-61-77 Average about Very Fine, some closer to Extremely Fine

Lot No. 1186

1186 1865 **Large S over small s, Fine or better**, some details VERY FINE, cleaned and retoning; a cut on shins has been smoothed over. **Very Rare** blundered die; until 1971 only two were known (one of them the discovery piece, in the Atwater sale in 1946, another in a New Netherlands sale); since then a few more have turned up, mostly well worn, leaving this rarity somewhere in the **High Rarity 6 range** (15 or so).

Lot No. 1187

1187 1857-S **Choice!** Only the slightest friction away from "Uncirculated" for which it was acquired. Those examining coins in this sale will note many described as EF and AU were originally purchased as "Unc." and "Choice Unc." Hopefully the "Official ANA grading Standards" book scheduled to be published this year will help further in accurate grading. **Very Rare in mint state!**

1188 1859 Brilliant Proof-60-65 Quite scarce and one of the nicer pieces around. Few miniscule hairlines seen under a glass. No Motto proofs are **greatly underrated** as a type, particularly in the choicer states of presentation. Fewer 1859 seen than 1860-65 dates comprising this type. On a comparative basis, this date should be a four figure coin.

1189 1862 Low mintage (550) Proof 60-65 Nice rose-lilac toning. Superior to most seen! **SCARCE TYPE in this condition.** Mint figures are deceptive as many were melted or "spent" in the Civil War. **PLATE**

COMPLETE BARBER QUARTER PROOF SET 1892-1916

- 1229 1892-1915, 24 **Proofs**. All Choice Pieces, Either “60+” or “65” Quality. We have been especially careful and descriptive in our comments for proofs. A “60+” here denotes a Choice coin, with light hairlines discernable under magnification. The fields and surface are attractive. For a “65”, the appearance is even more striking, with only the barest of hairlines evident, usually located after scrutinizing rotation of the coin under direct light. This set was evidently carefully assembled, **NO PIECES HAVE BEEN CLEANED, DAMAGED OR OTHERWISE “FUSSED WITH”**. Many pieces are matched toned a rich violet-brown.
- 1230 1892 BU-60. Nearly choice but for minute face scratch.
- 1231 1892-O BU-60. Nearly choice. Delicate gold toning. Scarce.
- 1232 1892-S Choice **BU-65, Proof-Like!** Near Gem, but for couple lt. face marks. **PLATE**

Lot No. 1233

- 1233 1892-O **Superb Gem Unc.-65**. Gorgeously toned. Nearly immaculate surfaces! In fact, the couple tiny face marks seen under a strong glass prevent a **Near MS-70** grade!

- 1234 1893-S Choice BU Near MS-65. Lovely light brown toning.
- 1235 1894 Brilliant and bluish Wire Edge Proof, choicer than most.
- 1236 1894-S “**POSSIBLE PRESENTATION COIN**”, ex. 11/75 Pine Tree Sale (lot 492) described by Breen; “one of those coins destined to be sold as “**Possible Branch Mint Proof**” — struck from brilliantly polished dies on polished blank, rounded rims, few minute contact marks, Brilliant Unc. with light gold and peripheral iridescent tone, not impossibly made for some presentation purpose.” This **Gem** also has all letters squared (like a Proof). It fetched \$425; the market has advanced since them.
- 1237 1894-S Toned: 1906 virtually Unc. pair, faint friction.
- 1238 1895 Pretty toned Proof-60+.
- 1239 1895 Unc.-60+. Delicate gold toning, Proof-Like, few tiny face marks from Choice.
- 1240 1896 Choice toned **Proof-60+**. Blue-green & pink hues.

Lot No. 1241

- 1241 1896-O Choice BU, nearly MS-65. Full deep blazing luster, few tiny face marks remove this beauty from a strong MS-65 class. **PRISTINE!** Among the rarest of the series thus. References undervalued this date for years.
- 1242 1896-S About Uncirculated, slight friction caused by harsh cleaning (and polishing) two face nicks. **SCARCE!**
- 1243 1897 Toned Unc.-60. Very pretty toning graces near-pristine surfaces, pinpoint nick.

Lot No. 1244

- 1244 1897-O Choice Unc.-65! Soft gold toning graces the almost Pristine surfaces! A **RARE** coin this nice.
- 1245 1897-S Uncirculated-60. Gorgeous russet toning, Proof-Like. A few tiny face marks from Choice. Rare.

1898-O AUTHENTICATED PROOF

- 1249 1898-O Brilliant Proof!** "Apparently an **INTENTIONAL Brilliant Proof!** Struck from **Brilliantly polished dies on a brilliantly polished blank**, ENTIRELY similar to the Philadelphia Proofs in surface. Excellent sharp strike, all details brought up about as on Philadelphia Proofs except that claws and arrow butts are not too well defined (which also occurs on unquestioned Philadelphia Proofs); edges are beveled. **Richly, iridescently toned Gem!** Any argument against the Proof status of this coin would have to be urged equally against any number of quarters found in original Proof sets of the 1890's. This is entirely beyond the quality of the first strikes often offered." W. H. Breen

RARE 1913-P MINT STATE QUARTER

1274 1913, Choice BU, Nearly MS-65. Recently “discovered” as a major sleeper in true Mint State condition. Most old-time collections had either a Proof or cleaned AU example in the Barber set. Recent sales have been in the \$1,200-2,000 range. This specimen is fully lustrous, well struck. The reverse is **pristine**, the obverse nearly so — some light marks are in evidence (the reason for our cautious grade). One of the nicest 1913-P’s to appear on the market!

1275 1913-D Choice Unc., near MS-65. Attractive light toning. One obv. field nick. SCARCE! Difficult date, especially this nice.

GEM 1913-S QUARTER - POSSIBLE “FINEST KNOWN”

1276 1913-S Brilliant Uncirculated Sharp struck Gem! **PRISTINE! BEAUTIFUL FROSTY FIELDS.** Certainly a candidate for the ultimate “**MINT STATE-70**” as the fields are perfect and the coin appears as if it were just struck. **THE CHOICEST SPECIMEN WE CAN RECALL SEEING IN OUR NEARLY HALF-A-CENTURY IN NUMISMATICS!** Careful scrutiny of our 300-odd sales reveals that we have offered fewer 1913-S in mint state than the 1901-S. Perhaps the fact that the 1913-S has by far the lowest coinage of the entire Barber quarter series has some relation to its rarity.

1277 1914 Gem Proof-65. Lightly toned. Smallest Barber mintage of only 380!

1278 1914 Superb Gem Proof-65+. EXQUISITELY BRILLIANT. NEAR PERFECTION! Only 380 struck! **PLATE**

1279 1914 Choice BU nearly MS-65, but for a few tiny face nicks. Far superior to most seen!

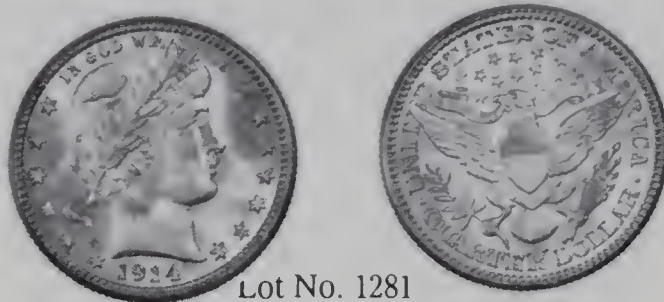

1280 1914 Choice Borderline Unc.-55+ & 1915, Toned Unc.-60+. Nice pair.

DOUBLE TYPE SET QUARTERS

EXQUISITE 1796 QUARTER

- 1361 1796 B-2, **Choice AU-55**. SPLENDID, ELEGANT, GRAND! A "wisp" away from Mint State, evidenced by touches of rub on the hair, curl, eagle's breast and letters. Eagle's head soft (as usual) but the neck bold. Radiant prooflike fields, gorgeously adorned by steel-blue and green toning. Likely to elicit scores of gasps by viewers.
- 1362 1796 B-1, **Small Eagle**, Very Fine-25, AMAZINGLY, another Browning-1 variety! but, this cataloguer cannot recall the appearance of two B-1's in any one sale. A most pleasing and choice VF specimen, as nice for the grade as one is likely to find. Light gold and grey toning. In a search to call this a "perfect" circulated coin, a small nick was located atop the eagle's left inside wing. Alas!
- 1363 1805 **LARGE EAGLE** B-3, "5" not touching bust, die crack from rim through star 4 to curl, 5 berries rev. Sharpness of **AU, or better**, but skillfully retoned and repaired in field between mouth and star #10. Still, attractive, as the deep blue-green colors have aged smoothly.

FLOWING HAIR HALF DOLLARS 1794-1795

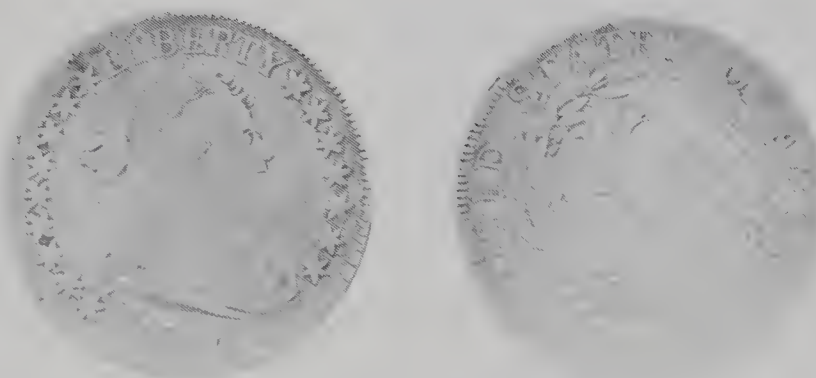

Lot No. 1386

- 1386 1794 About Very Fine or so, some handling scratches, especially obv., but quite tolerable considering the sorry state for most survivors. **SCARCE!**
- 1387 1794 About Fine, even wear but cleaned. **SCARCE. PLATE**

- 1391 1795 Strong Very Good. Nice example of type, tiny obv. 1:00 rim nick.
- 1392 1795 Nice Very Fine. Exceptionally attractive full VF, pleasing greyish-blue tone, below average handling marks.

Lot No. 1393

1796 16 STARS SMALL EAGLE HALF DOLLAR

- 1393 1796 16 Stars, 0-102. Rarest of three major varieties representing this very elusive two-year-type. On balance a pleasing Fine. Obv. grades VG+, good curl detail at top and bottom, faint outlining of other areas, ear visible. Rev., happily is very bold, $\frac{3}{4}$ of the wing feathers are sharp, close to Very Fine. Very few handling marks; indeed, a **superior example** of this, the **RAREST** of all U.S. non-gold types. In lucite holder.

Lot No. 1394

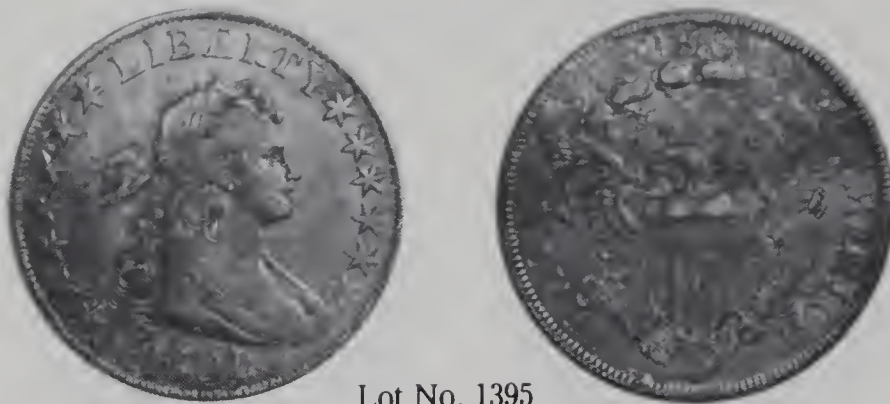

ONE OF THREE FINEST KNOWN OF THE EXTREMELY RARE 1797 HALF DOLLAR

1394 1797 Ov.-101a. Obv. 15 stars (evidently a 1796 die left incomplete for possible use in a later year). Rev. Die defect at base of 1 in fraction, rev. of 1796. At worst a thin hair's breadth short of Unc., some proof-like surface; usual uneven strike, localized weaknesses (as made) at 9th to 12th stars, ERICA and in centers of both sides. Antique gold and blue iridescent toning. The minute edge irregularities were produced (before striking) by the edge lettering machine; there are no handling marks worth mention. Light obv. adjustment marks (in blank before striking, to reduce weight to within mint tolerances) slant up from bust to stars; these should not be counted as a defect. One of three finest known of this variety, **possibly second finest**. Extensive research has proved beyond doubt that far fewer choice 1797's survive than 1796's! At present we can account for exactly eight 1797 half dollars from these dies which will rate even EF, of which the present coin is at least third finest; it is a **matter of subjective taste whether it will rank as second**. The roster speaks for itself:

- 1) Baldenhofer:676, A.M.Kagin, Norweb. Proof-Like, adjustment marks at AMERI.
- 2) TenEyck:1433, Newcomer, Col. Green, T.James Clarke, New Netherlands 47th sale, lot 1196. A light rub short of Unc.; eagle's head sharper than present coin but parts of stars and letters weaker, some minor nicks.
- 3) The present coin, lot 78 of our Nov. 1973 sale, later lot 134, our Jan. 1975 Beverly Hilton sale. \$35,000.
- 4) Granberg, Atwater:396, Reed Hawn:8, Joe Flynn. Similar to this one.
- 5) Boyd, WGC:61, similar but border dent above Y.
- 6) Byron Reed estate, Omaha City Library. Said to be close to Unc.
- 7) "Green Sale" (?), Dr. Clifford Smith:1077. EF-AU.
- 8) Lichtenfels I:2708 (Waldorf Sale, April 1961). EF-AU.

Following these is the "Dupont" specimen, VF plus, and a number of others in lower grades. (There is one other AU example of the date, ex Charles Jay, "Westwood, Terrell":58, Austin:679, but it is an Ov.-102.)

It would be perhaps easier merely to trumpet "Extremely Rare" and "One of the Finest Known" with a bunch of adjectives pulled indiscriminately out of one's Roget. That might even deceive some wealthy neophyte into bidding a few dollars higher than he might otherwise. We feel, however that it is fairer to the consignor and to the potential bidders to tell the truth about this coin exactly as we see it, and let the free market decide the coin's fate. We are enough impressed with the high quality of this splendid old rarity to have no fear that it will go begging or be snapped up by some bargain hunter. The offering of a 1797 half dollar in any condition is the mark of a great collection; the offering of an aristocrat of the stature of the present one is the proud high point of the half dollars in this outstanding collection!

Lot No. 1395

1801 CONDITION-CENSUS HALF DOLLAR

- 1395** 1801 Ov.-101. Generally called "13 arrows variety" Classical example of the grade Extremely Fine, with **better striking than usual for this date**, with traces of lustre and much pale honey colored toning, no defects worth mentioning, (bought as "Choice AU"). At least equal to the James A. Stack specimen a year and a half ago. Though not finest known, it is never-the-less believed to be in the **Condition Census**.
- 1396** 1801 Very Fine. First year of type; mintage a low 30,289. Strong rev. motto. Rev. denticles full, obv. rims not as bold. **PLATE**
- 1397** 1801 VG. Handsome specimen in full VG grade, with minimal marks, deep violet toning.

Lot No. 1398

1802 CONDITION-CENSUS HALF DOLLAR

- 1398** 1802 Classical example of grade "About Unc.", lustrous, with **full sharpness** but faint touches of what may well be genuine cabinet friction dating from when this piece rested in a velvet display tray. Lovely rainbow toning. Most probably in the **Condition Census** for this difficult date, (bought as "Choice Unc.") Finer than the Dunham-Reed Hawn coin (lot 11); **much finer than the cleaned James A. Stack example at \$4,500**; minutely finer than the Cox—Bauman—Scanlon piece; distinctly finer than the Miles-Glassenberg coin in the 1975 ANA Convention Sale, which managed to bring \$3,600 despite an injury at RTY. Surpassed in recent years only by the first Hawn example, and not by many points. Ex Milton Holmes coll., lot 1894.

Extremely Fine or better, iridescent blue and warm rose tone; usual uneven strike. **Exceptional condition for this variety**, which though not difficult to find in Fine, is very seldom found in EF or higher grades. **Not much less sharp than the "Terrell" coin (lot 399) at \$2,200. (1973).** Similar pieces used to be auctioned, in various grades, during the 1860's—80's as "1804 Under 5 Half Dollar!" Lot No. 1406

RARE "EMERGENCY OVERDATE" 1806

1406 1806/5 Ov.-104a (R-6). Underlying 5 clear in bottom of 6 unlike "common" 1806/5 showing only at corner. Heavy crack last three stars; break at U. Difficult to grade, this has some details **Extremely Fine** or better, many others weaker, believed largely as struck; traces of **mint lustre**, peripheral dark tone helping heal signs of old cleaning; minute bag marks. The variety is of great interest; like the 1806/5 quarter dollar and quarter eagle, but apparently no other obvs. in the series of overdates. The die began life as an 1805 production actually used for making coins of 1805 (Ov.-105). Normal overdates are from dies not used with their original dates; these three 1806/5 exceptions are thought to have represented some kind of emergency in 1806. Rarity of this half dollar, like the quarter eagle, is attributed to early die breakage. **Seldom offered**, especially with the advanced breaks, and usually in low grade; "Gilhousen":879, for instance was only Fine.

Lot No. 1407

1407 1806/9 Ov.-111, but **unlisted die state**: struck **before** the heavy rim break developed at TED. Difficult to grade, this has some **mint lustre** with iridescent toning, some details **Extremely Fine** or close to it, others weaker, mostly as struck; **sharper overall than the Overton Plate coin! Only the second** we have encountered to date without the "cud" break, and the **finer of the two**. A well known rarity in any die state and in any grade, and **one of the two most popular blundered dies in the half dollar series**, the other being 1846/horizontal 6.

Lot No. 1408

- 1408** 1806 Pointed 6, stem through claw. Ov.-115. **Brilliant, frosty**, warmly toned AU or better; probably **never in circulation** but it has touches of cabinet friction plus several pin scratches at shield, sharp strike. Probably destined to be reoffered as "Choice Unc." One for type collectors.

Lot No. 1409

- 1409** 1806 Ov.-115a. As preceding but with the **extra crack through STATES**. **Frosty, glittering, brilliant** rainbow toned AU; similar to preceding specimen but happily free of the scratches. Probably destined to be reoffered as "Choice Unc."

Lot No. 1410

● **INCREDIBLE** ● **1806 HALF DOLLAR**

- 1410** 1806 Pointed 6, stem through claw. Ov.-116 (R-3). **Iridescent sunset toned Unc.**, usual uneven strike, the obv. die weaknesses associated partly with the same progressive failure which eventually effaces the traces of recutting at TY and tip of 6, partly with the condition of the press; but this is **strictly Mint State** and not a borderline case at all. A remarkably beautiful example, not lately equalled. Ex. Waldo Newcomer, Col. Green, James G. MacAllister, T. James Clarke, Netherlands 47th sale, lot 1207.

Lot No. 1411

1806 FINEST KNOWN O-120 VARIETY

1411 1806 Ov.-120 (R-4) Same type. Y recut (not TY), spines up from both corners of shield. At worst borderline Unc., probably **never in circulation** but allowed to remain for years in a velvet display tray with the **splendid Proof-Like reverse up; full breast feathers**. Obv. is **frosty with a few minute bag marks and iridescent tone**. Quite possibly **finest known**; the **Overton Plate** coin isn't even close.

1413 1806 (2); 1807 Rt; 1808 — Lot 4 Nice VG.

Lot No. 1414

FINEST KNOWN 1807 BUST RIGHT HALF DOLLAR

1414 1807 Final year with bust right. Ov.-105, the familiar variety with border chip between S O. **Incredibly beautiful frosty Gem Unc., splendid, pristine, uncleaned, without bag marks worth mention, without any handling marks at all; as well struck as we have ever seen for this variety. As near to perfection as we have ever met with in business strikes of this design!** The only one that comes anywhere near close in this variety is Bauman:14; Reed Hawn's and Glassenberg's were not even close. Throw away the book on this one; perfection never comes cheap, and the present coin could not be duplicated if one offered triple redbook. Two years ago one dealer did buy an 1807 (the Bauman coin?) for \$7,500., evidently expecting to turn a liberal profit on it. The present coin has an illustrious pedigree: Ex F.C.C.Boyd, WGC (World's Greatest Coll.,' 1945):89; most recently, it was bought out of our Jan. 1975 Beverly Hilton auction (lot 358) at \$9,000. by the same perfectionist who consigned several other top quality halves to this ANA sale. It should go to another perfectionist.

Lot No. 1415

RAREST 1807 HALF DOLLAR

- 1415 Ov.-107 (R-7) Bust Right Obv. as preceding, 1 joined to curl, 8 low. Rev. Long die scratch joins stem end to border. EF, brilliant, some details AU, others weaker. Antique gold and sunset tones. Minor bag marks, mostly on obverse, of no consequence. Long dark planchet streak (in original strip?) nearly joining I and final S. **The rarest of the 1807's, unknown to Haseltine or Beistle; the first of these we have actually seen at auction. Extremely important specialist item.**

- 1416 1807 Bust Rt., VF+. Nice deeply toned.

- 1417 1807 Bust Rt., AU-50. Rev. quite brilliant and nicely lustrous, strong eagle's feather & breast detail. Obv. fairly sharp, but lightly cleaned in years past, not detrimentally. Two tiny rev. rim nicks. Ex. Rawls, 6/70.

CAPPED BUST HALVES 1807-1836 FIRST STYLE 1807-1808

- 1418 1807, 50/20, AU-50. Warmly toned grey and pink, much underlying "cartwheel" luster, though rubbed with lt. marks - indicative of minor handling. Ex Alto Sale, 12/71.

- 1419 1808 Choice AU-55. Beautiful pale-gold toned surfaces, very lustrous, no problems Only lt. friction, seen along face, down neck to bust, and on highpoints of curls removes this from Unc. Ex Alto, 12/70 **PLATE**

- 1420 1808/7 VF; 17/3 VF+; 20 VF cleaned; 28 EF; 35 F cleaned.

REMODELED PORTRAIT & EAGLE 1809-1834

- 1421 1809 "Normal", AU-50+. Very pretty coin, light brown & blue peripheral toning, surprisingly free of nicks or scratches (often rim nicks seen from edge lettering), only slight rubbing. Ex Scanlon 10/73. **PLATE**

Lot No. 1424

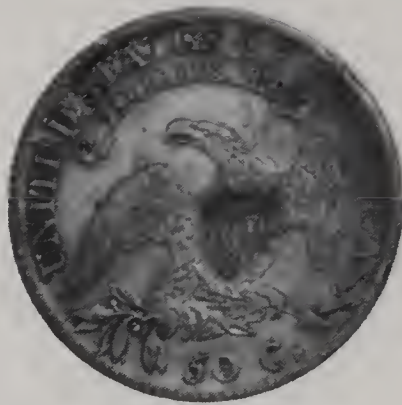

1812 GEM OVERTON 103 HALF DOLLAR

- 1424** 1812 Ov.-103, the familiar variety with two dots below I (CA), another below U. **Splendid, frosty brilliant Unc., excellent sharp strike, pristine, free of noticeable bag marks, a real gem!** (The tiny edge irregularities are from the edge lettering machine.) This has what consignor calls the “experimental 11111” edge, but it is not the same as that recorded for 1809. Excellent match for Glassenberg: (1975 ANA:492 at \$1,200), and Getty collection sale, where the consignor (one of the more advanced specialists in the Bust Half Nut Club) commented that this variety is “extremely scarce in Unc.” One for perfectionists.
- 1425** 1812, O-104, Choice AU-55. Nicely toned, faint rubbing, full luster. **PLATE**
- 1426** 1812 Ov.-107. The unusual variety with die defect lump above left wing, and BERT clash marked twice, once in shield, the other time in field under wing! Extremely Fine, weak uneven strike, with the **widest double profile we have yet seen** on one of these. In the Getty sale is the remark for this variety that only one mint state example had been observed among 21 specimens in the BHNC holdings, which speaks for itself. **PLATE**
- 1427** 1812 Very Fine; 1827 Extremely Fine; 1837 Very Fine.
- 1428** 1813 EF-45, pretty toning, tinges of luster. Ex Alto.
- 1429** 1814/3, O-101, AU-50+. Lovely toning. Ex. Forrest. **PLATE**
- 1430** 1814 “Normal”, AU-50. Very pretty and sharp. **PLATE**

Lot No. 1431

- 1431** 1815/2, O-101 (R-4), EF-40. Rarest year issue in the series. Just fulfills EF-40 criteria, although very harmlessly bathed sometime in the past. Tiny area on “O” in value appears as expert repair.

Lot No. 1439

- 1432** 1815/2, 101a (R-3, rev. diecracks), Choice EF+-45. Richly toned grey and pink, strongly struck, well-centered, both sides showing full, even denticles. Surfaces quite nice, though barely short to qualify for AU-50 grade.
- 1433** 1817 "Normal", AU-50+. Another very pretty coin, nice toning, just "missing" Unc. due to rubbing and/or friction. Ex. Scanlon. **PLATE**
- 1434** 1818/17 O-101, Choice Nearly Unc.-55+. Beautiful soft pink and green toning. A wisp of rub and tiny handling marks from full S M-60. Ex 1975 ANA #500. **PLATE**
- 1435** 1818 About Uncirculated; 19/8 sm About Unc. (edge bruise); 23 AU, 29 Fine.
- 1436** 1819 AU-50+. Pretty toning, lustrous, Ex Hawn 8/73. **PLATE**
- 1437** 1819-25-31-32 Average Good; 1829 Fine.
- 1438** 1820/19, O-102, Choice borderline Unc.-55+. Beautifully toned. Although many will instantly believe this a full Unc.-60 (or better), we note very slight rubbing on these areas: face, curl rt. of Y, cap, and lowest curl. Very scarce. **PLATE**

Lot No. 1432

- 1439** 1820 Ov.-105a. Large wide date; three joined dentils near leaves; rare **(R-5)**, crack through curl joining 82. Extremely Fine-About Uncirculated, lustrous, warmly toned; apparently unobtainable in full mint state. No recent auction records for this die state, which is actually an **unlisted intermediate** between 105 and 105a.

Lot No. 1440

- 1440** 1821. Ov.-104. Star points to upper edge of ribbon; 5 leans sharply right. Borderline Uncirculated, attractive iridescent toning, excellent surfaces; equal to that in the Getty sale. No finer one offered in years.

Lot No. 1441

- 1441** 1822/1. "Ov.-102a." **(R-5) Rarest of the 1822 overdates.** Rust marks near 12th star; pronounced center dot, rev. of 1821 Ov.-107. **Unlisted die state:** rim to 3rd star to chin. About Uncirculated or better, beautifully frosty, with warm rich irregular tone, darker on reverse. **First of this variety offered in years!** Consignor marked it **"FINEST KNOWN?"** We have no auction records to dispute this claim, nor do we recall seeing a finer one.

- 1442** 1822/1, AU-50, Nicely toned, sharp. Ex Forrest. **PLATE**

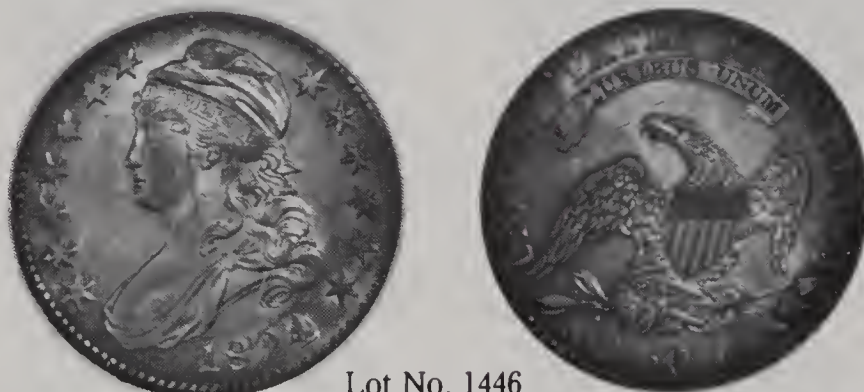

Lot No. 1443

- 1443** 1822 Ov.-106. (Actually 1822/1 but in later states the traces of 1 are polished off the die, before the cracks developed). In date 18 above 22; plain rev. center dot. Frosty borderline Uncirculated, lovely surfaces in fields, iridescently toned. As the Getty sale specimen was not even full EF, the importance of this one can be readily guessed.

Lot No. 1446

1446 1824/22/20, alias "1824 over various dates." Ov.-103. About uncirculated or better, frosty, but with signs of old cleaning. Sharply enough struck at date so that the **riddle can at last be read**; the 2 and the o show plainly around the 4. On comparison of the numeral punches to halves of other dates, the 182 have proved to match identically those used in 1820 Ov.-108 and 1821 halves, the 0 apparently is as in 1820 Ov.-108 (visible left and right of 4), the 2 over 0 is clear enough and appears to match one of the 2 punches found in 1824. Double overdates are known in other denominations in this period; the best known ones are 1824/3/2 dimes (the traces of 3 wear off the die) and 1825/4/3 quarters.

1447 1824 Choice borderline Unc.-55+ & 1824/4 EF-45. Each Ex. Patten

1448 1825 In holder marked "Choice Proof" but close examination reveals some porosity in the planchet although it has prooflike surfaces; a glass indicates just the barest rub on top curl. Quite deceptive. A highly desirable specimen.

Lot No. 1449

1449 1825 Ov.-116, Fancy 2. (Should list higher than Plain 2; 5 obvs. as against 8 with plain 2.) **Brilliant frosty Unc., excellent sharp strike everywhere except at bust point and opposite area (scroll below AT).** The few bag marks are not serious enough to require description. **Exceptional condition for this variety**; the specialist in the Getty sale mentioned only one Uncirculated among 17/business strikes among his compatriots. No other auction record recent enough to quote.

It has also been claimed that this appearance is characteristic of the particular edge dies used. We have not enough information to decide and leave the question open to specialists.

EXTREMELY RARE 1830 PROOF

1460 1830 Small O, small letters. **Fully brilliant, deeply-mirrored Proof.** Most stars sharp-well filled; stars 6-7-9 do not show centers, not atypical. **NO ONE COULD MISTAKE THIS FOR ANYTHING BUT A PROOF;** the fields are of such mirrored depth that a business strike could not possibly approach. There are no marks or inconsistencies to speak of - the surfaces are of such **GEM** quality - other than a minor planchet streak atop the eagle's head. In all, one of the more **SPECTACULAR** Bust Half Proofs we have seen. We might add that on a value basis, pre-Liberty Seated Proofs are extremely **UNDERVALUED**. Owing to their relative rarity, infrequency of appearance, and the oft-times difficulty of identifying them, the market extracts a value penalty. Be that as it may, here is a specimen **ABOUT WHICH THERE COULD BE NO QUESTION!** We note a recent advertisement for an 1830 Proof 50¢ piece at \$5,200. Housed in a distinctive mahogany box.

- 1461** 1830 Large O, Choice Sharp Strike with lovely brilliant golden blue toning, a rub away from "Choice Uncirculated."
- 1462** 1830 Sm. O, O-110. "Third edge"—plaques between words, diagonal hatching on them slants up rt. About Uncirculated; few details suggest EF+, surfaces suggest better than AU. Rich warm toning. Specialist in Getty sale unable to locate a fully mint state example. **PLATE**
- 1463** 1830 Tall O; O-123. Same edge as O-110; blundered LOFR A DOLLAR. Similar grade and quality except fields are slightly more rubbed. Unusual and **rare degree of slippage** in edge lettering. **PLATE**
- 1464** 1830 Small O, Ch AU-50+; 1834 Ch AU-55, Proof-Like.

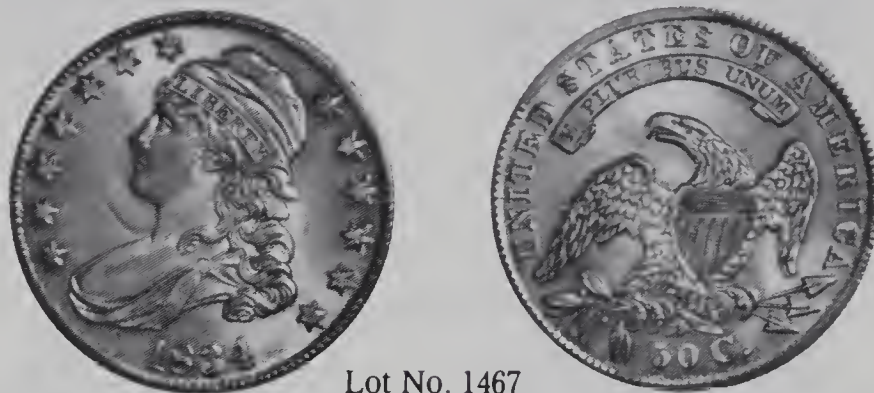

Lot No. 1465

1465 1831 BU-60. Sharp and lustrous, with PNG Certificate

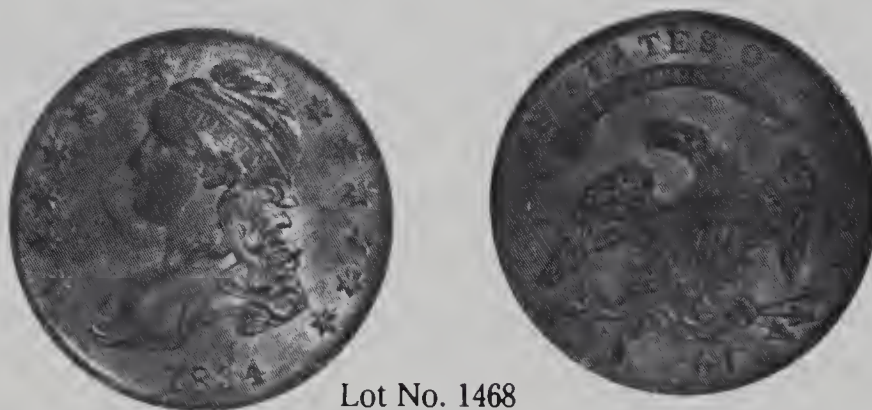

1466 1831 Ch AU-55+; 32 Ch AU-55; 36 AU-50 - lot 3.

MODIFIED PORTRAIT 1834-1836

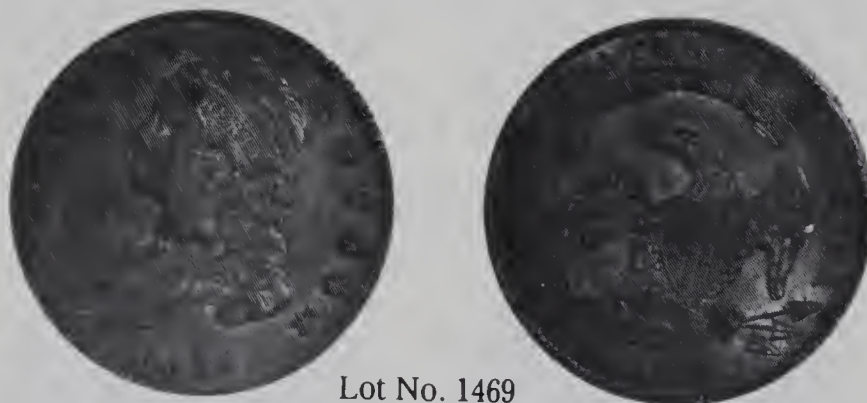

Lot No. 1467

- 1467 1834 Large date, small letters, O-107. Very rare “contradictory” blundered edge, **FIFTY CENTS A DOLLAR**, The HALF entirely obliterated in slippage. **Brilliant choice frosty Uncirculated, no noticeable bag marks; unusual uneven strike, but a beauty.** This will at least tie the coin in the Getty sale, of which the specialist consignor said he had found only one mint state piece among the 28 held by fellow Bust Half Nuts., and it was not recorded as having this edge blunder.

Lot No. 1468

- 1468 1834 Sm-date-stars-let-head 1835. Ov-115a, **rare late state** after dies had been vigorously lapped. Edge blundered OARLF. Borderline Uncirculated; really would qualify as **Choice Uncirculated except for small rub on forelock** and a couple of smaller ones elsewhere. Pale gray and gold tone. Likely to be dipped and resold as a “Gem”.

Lot No. 1469

- 1469 1834 Same type. O-118 (**R-6**). Readily recognized by the top of an I peeking out just beyond top curve of R; note also the parts of extra letters just left of ATES. Edge with rare blunder **FIFTY CENTS OR A DOLLAR** — another “contradictory” edge. Borderline Uncirculated, lustrous, iridescently toned, a beauty (naturally acquired as “Gem Unc.”) “**Office boy reverse**” variety, discovered by this writer about 1969; it has remained **rare**, the more so with the edge blunder.

1470 TYPES 1834 EF-40; 37 EF-40; 39 Bust EF-45; 52-O VF-20.

Lot No. 1471

1471 1835/4. O-107. Part of diagonal of 4 shows just under & r. curve top 5. End-crossbar of 4 shows as dot in field. Rev. same as 1834 Ov-120. Edge AOLF A DOLLAR. Obv. borderline Uncirculated., rev. full mint state; lovely iridescent tone. Getty specialist had only AU, though the variety is common enough in lower grades.

1472 1835. O-106, Heavily recut 5 in date; wide dentil at first star. Obv. About Uncirculated, lustrous; rev. borderline Uncirculated, frosty. Light golden toning Tied for **second finest seen**, according to the specialist in the Getty sale. CF. 1975 ANA, lot 537, similar in quality to this one, at \$450. **PLATE**

1473 TYPES 1835 VF; 37 EF cleaned; 38 EF-40; 49 EF-45 - lot 4.

1474 1835 EF-40; 37 EF-40; 1845 AU-50 - lot 3.

Lot No. 1475

1475 1836 O-106a, Thorns on end of stem and r. base of A of STATES. Rare shattered rev., possibly should be called "**106b**" as the crack described by Overton has extended in two branches through CA to border; **latest state known, very seldom seen**. Obv. **brilliant choice frosty Uncirculated** with some dusky peripheral tone, rev. gray and not so choice, nor so well struck, with a couple of tiny rim nicks.

Lot No. 1476

1836 REEDED EDGE

- 1476** 1836, Reeded Edge, EF/AU. Originally issued as a pattern, (Judd 57) a transitional piece of the design adopted in 1837. "Accepted" now as a pseudo-regular issue; estimated **mintage 1,200**. As a result, investment support has driven the price up appreciably during the past few years to where it continues to be actively sought. This is a very **Choice nearly About Uncirculated** specimen; the surfaces and luster suggest AU, while detail falls short. Attributed by specialist Richard Piper (author of the **Elusive 1836 Reeded Half Dollar**) as Rare Type 111. We recommend his book for the fascinating story about this coin.

Lot No. 1477

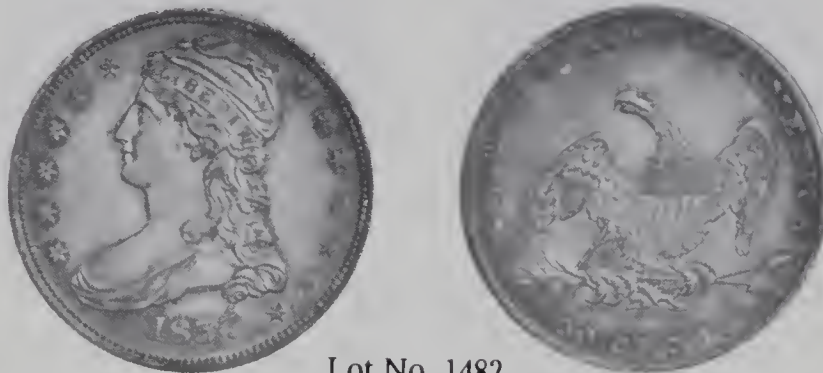

- 1477** 1836 Reeded Edge, AU-50. Very clear and clean appearance, light rubbing, has been cleaned. Quite scarce in this grade. **LOW COINAGE**.

Lot No. 1478

- 1478** 1837 "50 CENTS" (only used for rare 1836 and 1837) **MAGNIFICENT SHARPLY STRUCK** with lovely blended blue green brown lavender luster, full "cartwheel". We cannot imagine a lovelier specimen for type or date! Worthy of the most discriminating collection.
- 1479** 1837 AU-50. Partially Proof-Like. Light obv. handling marks and scratches. Really quite nice. **PLATE**
- 1480** 1837 Choice borderline Unc.-55+. Lovely toning, the slightest hint of obv. rubbing prevents full MS-60 honors, though the rev. satisfies this level. (500 up) **PLATE**

1481 1837-EF+; 38 near AU-50 - nice pair.

Lot No. 1482

1482 1837 So-called “**INVERTER G VARIETY**” the C in AMERICA having a diecutter’s mark across the lower tip of serif makes it uncannily resemble a mirror-imaged (inverted) G. Diam. 30.5 mm, fine reeding, partly doubled. About Uncirculated, plenty of mint lustre, some iridescent tone; **UNUSUALLY SHARP**, as the variety normally comes weak at RICA. **VERY RARE**.

1483 Types 1837 VF; 39 Bust, EF; 40-SL, EF; 42 SD-LL, EF - lot 4 cleaned.

1484 1838 AU-50. Brilliant and very sharp, cleaned.

1485 1839 Bust, Choice AU-55. Superb sea-green toning, the highpoints lightly rubbed; hence, short of MS-60. **PLATE**

1839-O SHARP STRUCK-PROOFLIKE

Lot No. 1486

1486 1839-O Base of mintmark repunched; beginning crack through date & stars, hairline cracks through much of legend. **Brilliant Uncirculated, some pale gold tone**, faint bag marks. Popular Obv. “O” similar to renowned 1838-O. **SHARP STRUCK!** Prooflike surfaces.

1487 1839-O EF-40. Nice, clean piece, enjoying strong popularity. (300-up) **PLATE**

1488 1839-O EF-40. Another nice coin. (300-up)

1842-O "PRESENTATION PIECE"

1498 1842-O Medium Date, **Proof-Like Surfaces Both Sides**, Sharp Struck with Raised Edge; "SQUARE" Sharp Edge characteristic of Proofs! Struck from highly polished dies with highest spot (breasts and corresponding spot rev.) not being full (overpolishing of die). Lovely pink, blue and golden colors. **EXQUISITE!** Obviously, "Special Care" was used in its manufacture.

1499 1842-O MD, Choice AU-55. Lovely toning, exceptionally sharp. Light field friction prevents MS-60. Ex. Schulman 12/73 #741.

1500 1844 Repunched 18. **Sharp. lustrous, warmly toned Uncirculated**, rather fewer bag marks than usual. Sharp struck with wide edge. Only two similar specimens auctioned in recent years: Merkin Feb. 1971 and Garrett:202, neither one appreciably finer. Ex R.E. Cox: 1894, in original holder.

1501 1844 EF-40; 44-O AU-50; 50 EF-45 - nice lot 3.

1502 1845 Splendid example of this date. **Brilliant Uncirculated MS-60**. Would be closer to 65 except for faint brush marks in field, lustre. Should bring (450-550) **PLATE**

Lot No. 1505

1845-O TRIPLE-CUT 5

1505 1845-O TRIPLE-CUT 5 Extremely Fine-45 with traces of luster. This is unlike Beistle 2B (triple cut date), but is more like Beistle 5E and 6F combined, as the "5" shows an impression to its left and another to the far right. **Certainly R-7 as Scott suggests!** Interesting specimen for the specialist. (500-up)

1506 1845-O, 56-O, 57 & 61, Nice EF's; 66 Motto VF - lot 5.

Lot No. 1507

1846/5 UNCIRCULATED

- 1507 1846/5 **Brilliant Uncirculated MS-60-65**. Small planchet defect by beak is the most noticeable defect. **Excellent strike with full head, stars, and feathers**. Lovely smooth fields. Virtually unknown in Unc. The 2 Unc. specimens I know of are the Cox specimen (believed to be this one) which realized \$450.00 in 1962; the Merkin piece which realized \$495.00 in 1971 and the Hawn piece which brought \$700.00 in 1973. High R-7 (ONLY 4 TO 6 KNOWN) in Scotts-Should bring. (1,000-up)

Lot No. 1508

CHOICE 1846/HORIZONTAL 6

EXCEEDINGLY RARE 1847 PROOF

1512 1847 Normal date, thin, placed below center. Rev. Scattered crisscross diagonal die file marks in white stripe. **Splendid, choice, deeply and irregularly toned Proof.** One of **less than a dozen known**, of which two are impounded (Smithsonian and a Philadelphia estate), a third (Norweb's) is almost certain to go to ANS, and several others are impaired. This yields nothing in quality to the Brank, Lichtenfelds, Cox, Glassenberg, 1975 ANA example, Hawn, or Champa, "Terrell" specimen, and its pedigree is if anything, even more illustrious, Randall:400 (Sept. 15-17, 1885), T. Harrison Garrett, John Work Garrett, Johns Hopkins University, Garrett:210.

1513 1843, 47, 47-O, 52 - lot 4 EF's; last 2 lightly cleaned.

1528 1853-O VF+; 54-O EF-40; 99-O Fine - lot 3.

Lot No. 1529

1854 MAGNIFICENTLY TONED PROOF

- 1529 1854 **Splendid, magnificently toned Proof**, mostly peacock blue, rose and antique gold. Few minimal contact marks, not disturbing the lovely colors. From the same dies as the few other proofs of this date. No auction records recent enough to afford a reasonable guess as to value; three pieces were auctioned in 1973 (this one, the Reed Hawn piece at \$6,750, and the lacquered piece in the 1973 NASC sale) but none since. The present coin is in a class with the Hawn specimen; at its 1973 auction appearance it was claimed to be one of fewer than six known, which is not very far off, as to date we can trace these three, two others in private collections, and one in a Philadelphia estate! It is extremely unlikely that as many as a dozen different ones survive. Ex 1973 ANA Convention sale, Lot 1206.

- 1530 1854 ARROWS AU-50. Brilliant & sharp. Ex. Austin 5/74.

- 1531 1854-O Arrows, About Uncirculated with luster, minute field abrasions.

1854/1854-O CHOICE UNCIRCULATED

- 1532 1854/1854-O ARROWS, Brilliant Uncirculated, Sharp Struck MS-60. "1" is recut left. "854" are recut right. Very lustrous and excellent type. Guide Book \$650 for normal date - this?
- 1533 1855 ARROWS, Choice AU-55. Lovely soft gold toning, lightly rubbed on the highspots: head, breasts, legs, arms. **PLATE**

Lot No. 1534

1855-O MINT STATE HALF DOLLAR

- 1534 1855-O ARROWS, Brilliant Uncirculated, **Sharp Struck Gem! Pristine Light Golden Luster!** It is difficult to imagine a lovelier specimen for "Type" or date. For some unknown reason, this "arrows" type is more difficult to obtain in the ultimate condition than the mint figures might suggest.

1535 1855-O, 59, 60, 69, 77-S - lot 5 VF-XF "whizzed."

1536 1856-O Unc.-60. Reengraved date. Nicely toned. Ex Scanlon. **PLATE**

1537 1857, 57-O, 60-S lot 3 AU-50's, nicely toned.

1539 1858 Proof-60. Delicately toned, Lt. hairlined, with faint friction and rev. handling marks.
RARE, first of the publicly-issued proofs, mintage estimated at only 80. (750-up)

Lot No. 1552

1861-O PROOF HALF DOLLAR

- 1552 1861-O **Proof**. "Partial drapery, centered date, foot not supported, toe not enclosed. Obtained as a Proof, this is struck on a **brilliantly polished planchet from dies which had been burnished to mirrorlike brilliance**; pale pinkish golden tone. Head and stars not as boldly struck up as are other details. The surface, despite a few trivial signs of handling, is convincing, and **would be convincing on a Philadelphia proof**."

Only four auction records for proofs:

- (1) "Dupont": 2168, high knife-rim;
- (2) R.E. Cox: 1963, scrape near final A;
- (3) Mass. Hist. Society II: 608 (March 1973), \$3,000 to Julian Leidman;
- (4) J.A. Stack estate: 494, \$3,400.

The above specimens are apparently from different dies from the present coin, nor has the present coin the knife-rim, but the surface speaks loudly and clearly, and tells us that this was made for some **special presentation purpose**." W.E. Breen. Context of accompanying material leads us to believe it was made for **CONFEDERATE PRESENTATION PURPOSE!**

- 1553 1862-S Small broken top "s", Brilliant about Unc., Sharp but cleaned. Scott has "Ext. rare Unc." and values "A.U. \$350 - Unc. \$800"; this worth? **PLATE**
- 1554 1863 Proof-60+. Light hairlines, pretty. Ex. Slawson 4/70.
- 1555 1864 Proof-60+. Pretty, light hairlines, 2 small obverse nicks. Ex. Slawson.

Lot No. 1556

- 1556 1864-S, Large S, Partial Drapery, Brilliant Uncirculated 60-65. Very light golden toning. **RARE**, particularly in this choice state of preservation. Much more so than the other two "s" varieties.
- 1557 1865 Proof-60+. Faint hairlines, but somewhat blotchy toning.

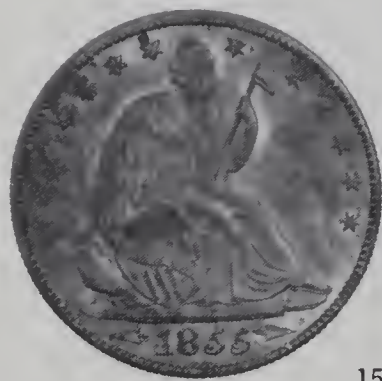

Lot No. 1558

- 1558 1865 Doubled Date, Choice Unc.-60+. Beautifully toned, the reverse **PRISTINE!** Exceptional quality. Scarce date but **RARE VARIETY**.

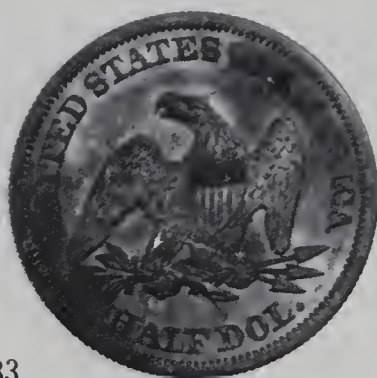

Lot No. 1559

- 1559 1865-S "Broken top "S" (Small s from old 1862-S punch). Lovely golden hues over satin surfaces. Very Well Struck. **Gem 65! Virtually PERFECT SURFACES!** The rarest "s" mint variety. *It is difficult to restrain from using "rare, very rare or extremely rare; Gem, Superb, condition census, possible Finest Known" and other superlatives in describing many of these exceptional pieces. Knowledgeable collectors will understand the rarity and desirability of these beauties without being bombarded with all kinds of adjectives.*

Lot No. 1570

- 1570 1870-S (Part./Drapery - Sm. S) Brilliant Uncirculated 60+. Just acquiring some light golden toning. Quite scarce, more so than mintage might indicate.

Lot No. 1571

- 1571 1871 Choice Br. Proof-65. Far above average. 960 mintage.

1572 1871 Attractive golden Proof, pinpoint nick reverse. Better than most.

1573 1872 Toned Proof-60. Pretty colors. Ex. Scanlon.

1574 1872-CC Unc.-60. Beautifully toned, very rare grade. Softly struck in the centers, but no discernable rubbing. Smooth, unmarred fields. **PLATE**

Lot No. 1578

EXTREMELY RARE. FOURTH FINEST KNOWN 1873-CC NO ARROWS

1578 1873-CC No arrows. Closed 3; small round cc. Borderline Unc.; obverse AU Nice, reverse full mint state; rich iridescent tone, luster, sharp striking! (naturally, sold for "Choice Unc.") Obverse shows several small shallow rim nicks. **Extremely rare in this condition.** There are three different Mint State specimens (Miles:1374; Hawn:260, \$2,300; and Boosel-Glassenberg-1975 ANA:667, \$2,400), followed immediately by the present coin, then by the cleaned James A. Stack example (rub on knee, \$1,700), then by Herstal:460 (weakness on eagle), Stack's 2/76:761 (nicks near cap), and possibly five others in EF; then a steep drop in average condition, as these mostly come in VG or Fine. **One of the most important Carson City half dollars in existence.**

Lot No. 1579

- 1579** 1873 ARROWS, Brilliant Proof-60. Light hairlines, and small scuff mark by foot. Otherwise nice example of this scarce type. Ex. Scanlon.

Lot No. 1580

- 1580** 1873 ARROWS Quadruple stripes (normal is 3) Obv. shield. Short arrow heads. **“High R-6, extremely rare in Unc.,”** Scotts. Brilliant AU-55 (bought as BU) with P-L surfaces. A must for the half dollar specialists! Bag mark rev. shield.

TIED FOR FINEST KNOWN 1873-CC WITH ARROWS

- 1581** 1873-CC ARROWS. Larger CC mintmark than on preceding; open 3. Deeply, **iridescently toned Unc.**, Sharp Everywhere except on part of Ms. Liberty's hair at temple. **Tied for finest known of this rarity.** There are apparently only four or five which can be called Mint State without a “but”. The present specimen is a little sharper struck on eagle than the E.A. Carson coin (Willing cat., lot 85); it is free of the flan imperfections on the Miles-Scanlon piece; it is tied with Reed Hawn:263, long believed finest. Any of those three may have originated in the Baldenhofer collection. In addition, there are the Wolfson-Bauman coin, rubbed in obverse field, and the cleaned piece in Merkin's Feb. 1971 sale, which possibly fall a hair's breadth short of the others. The next three or four rate EF-AU, then a steep drop; most survivors seen are VG to Fine, and there are not many of them. From the foregoing account, the present piece is evidently tied for Finest Known. It has an illustrious pedigree, too: Ex. Gustav Lichtenfels 1:2910 (Waldorf sale, 1961); R.E. Cox:2003 (original holder). Earlier, believed Ex. Dr. Clifford Smith:1077.

BARBER HALF DOLLAR PROOFS - SELECT GROUP

1631 **Group 11 Barber Proof Halves.** Due to their size, a good portion of surviving Barber Proofs are less than Choice; in fact, many are in varied states of impair, i.e.: nicked, scratches, cleaned, heavily hairlined, spotted, etc. That a comparatively small percentage survives in at least "60+" grade, indicates this rarity. Thus, it is with pleasure we offer this select grouping. Several are with auction pedigrees.

CONFEDERATE HALF DOLLARS

Lot No. 1743

- 1743 1861 Confederate Half Dollar, Restrike. Rev. **Brilliant Unc.**, irregular border tone, but **Choice** and the **sharpest impression of the kind we have ever seen!** Obv. with usual flattening and old scratches (before restriking); shield point over r. foot of 1, left base of 1 over center of dentil, foot supported, toe enclosed (compare next lot); wt. 12.1404 grams = 187.35 grains, **heavier than usual**. Ex Reed Hawn: 214.

Lot No. 1744

- 1744 1861 Similar but **different die**. Rev. **Brilliant Unc.**, sharper than average but not fully up on upper lettering; irregular toning here and there. Obv. with usual flattening; shield point almost over 8, left base of 1 over space, foot not supported, toe not enclosed (die heavily relapped). Wt. 187.2 grains.
- 1745 1861-O Obverse die used in Confederate Half Dollar, Scott Pg. 280, (diagnostic die break from nose). Sharp VF Obv. About Unc. Rev. **RARE**. Bought 10 years ago at \$250.; present value?
- 1746 1861 Scott Token obv., Confederate rev., Proof-Like. Cat. Unc. \$225.00.
- 1747 1862 Confederate Half Dol/1862 Confederate seal, gold "replica" (circa 1950's?) Brilliant Proof. Ex 11/73 \$125.00.

U.S. DOLLARS — FLOWING HAIR TYPE

Lot No. 1748

- 1748 1795 **Bolender 5**. Three Leaves, "bar" behind top curl point, crack from stem end to rim. **Mint State. Splendid iridescent toning; the pristine surfaces flawless** except for a faint light spot on cheek. Well struck except at very centers; no bag marks; well centered; many light adjustment marks near obv. borders, heavier ones near central obv. **As fine as we have seen in some years**, exceeded slightly by the Miles presentation coin, but at least a match for the Taylor "Alto" and Scanlon coins, and superior to most others auctioned.
- 1749 1795 Flowing Hair, B-1, 2 leaves, Very Fine-25. A "classic" VF example of this popular type. Extremely clean and appealing. Slightly bruised obv. rim at 12:00, way above bottom of denticles. **PLATE**.
- 1750 1795. B-4, (R-4) Flowing Hair 2 leaves, Choice Very Good-10. Some obv. handling marks and sm. scratches.

1757

Lot No. 1751

- 1751 1795 Flowing Hair, B-5, 3 leaves, About Ext. Fine-35. Apparently cleaned. Several sm. scratches and rev. adjustment marks, none too serious.
- 1752 1795 Flowing Hair, B-5, 3 leaves, VF-30. Another, this with a more pleasing and wholesome surface.
- 1753 1795 Flowing Hair, B-5, 3 leaves, Fine 12. Another pleasing example of this popular type, with below-average marks.

Lot No. 1754

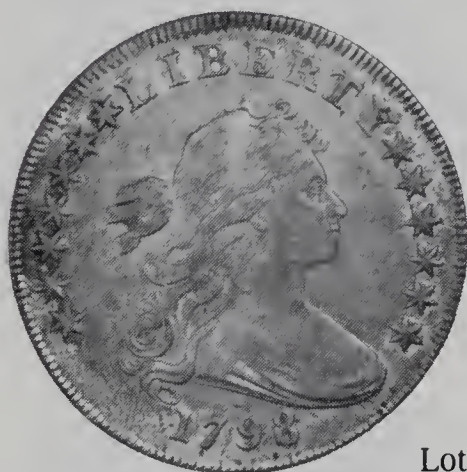

\$1 1795 DRAPED BUST TYPE — UNCIRCULATED

- 1754 1795 B-14, Splendid, frosty, glittering, lightly toned Choice Unc., as well struck as this comes; eagle's eye clear, partial neck and leg feathers, more than half breast feathers. Two tiny rev. rim nicks, no noticeable field or device bag marks. Finer than the Scanlon or Bolender-Austin-Ostheimer-"Gilhousen" coins among many others, at least equal to "Alto":1059, Miles:1528, and Brand, B.G. Johnson, T. James Clarke, Steckler coin.
- 1755 1795 B-14, Small Eagle, About Extremely Fine (VF-35). Scarce type; the "type 2" 1795 quite scarcer than more popular "type 1". Exceptionally clean surfaces. **PLATE.**
- 1756 1796 Small Date, Large Letters, (B-4), VF-20. Average handling marks.
- 1757 1796 LD, SL (B-5), Very Fine+ (25). A pleasing example of the scarce small eagle design; marks are trivial. The rev. die lump rt. of I in AMERICA is characteristic of the variety, by no means a defect. **PLATE.**
- 1758 1796 SD, SL (B-5), Very Good-10. Several nicks, three serious ones by star's #1 & 6 and by nose, otherwise acceptable.

CHOICE 1797 DOLLAR

- 1759 1797 Stars 10 x 6. B-3, early state before die reground. Difficult to grade, this piece has enough rubbing on highest points to suggest between EF and AU, but other relief details are **full mint sharpness and fields are covered with mint frost and attractive irregular tone**. AU would be a reasonable compromise. **Very Scarce**; one of the nicer survivors of **only 2,493 minted** (August 12-28). The date 1797 has long been prized because its total mintage is the lowest of the design.
- 1760 1797 10 x 6 B-3, Fine-12+. Lightly polished, yet surfaces display below average marks. Popular year, only 7,776 total minted.

HERALDIC EAGLE DOLLARS 1798-1804

Lot No. 1761

- 1761 1798 B-21 **(R-5)** Very wide date, die chip above left part of 9; only 10 arrows (plus an extra stick), rev. of B-13 but struck before that number. Ex. Fine or so, rather blunt strike as usual, **traces of mint lustre mingled** with dull gray tone especially on reverse. Unknown in mint state; three AU's were discovered in the 1950's, but this is still **probably among the top dozen**.
- 1762 1798 5 Berries & 1802, Both holed and repaired, otherwise very good appearing.
- 1763 1799 B-5, VF-EF. A handsome example, well-struck, centered, near-absence of the usual handling marks. With PNG certificate.

Lot No. 1764

- 1764 1799 B-7, Details suggest AU, or even higher, but signs of an old cleaning, now pleasantly mellowed, full stars and all the hair detail. Toned to a rich green and grey, **impressive as type**.

- 1765 1799 B-10, EF. Detail more than sufficient to qualify at or near the MINT STATE level, yet dark silvery-grey surface and slight pitting suggests poorly preserved coin, perhaps buried. Our "EF" grade, reflects this happenstance. **PLATE**
- 1766 1799 B-10 Strong Fine. Minimum marks. R7 variety.
- 1767 1799 B-16a EF-40. Lustrous. This too, is a premium Bust Dollar, well-struck, min. marks. **PLATE.**

1799 CONDITION-CENSUS DOLLAR

Lot No. 1768

- 1768 1799 B-10a. Obv. die earlier seen on B-11, 7 and 5, but relapped to remove clash marks, those from wing remaining 2nd and 3rd stars; first star now much smaller than the rest; crack, last four stars. Rev. Leaf point close between left tip and left edge of upright of I (diagnostic); shattered die with all the cracks described by Bolender. **This was a brilliant frosty Unc.,** but someone tried to remove a tiny pit mark from near 11th star, and there are obv. hairlines. **Reverse is still really choice and fantastically beautiful.** Had it been left alone it would have been **finest known.** As it is, it still remains in the **Condition Census**, and it looks much better than it sounds.
- 1769 1799 VF-20. No berries, B-11a, rev. die break, a very scarce variety. Pleasingly toned, sm. rim bruise obv. at 8:00. **PLATE**
- 1770 1799 8 x 5 stars, B-23, Fine. Pleasing, and well in the Fine grade.
- 1771 1799 B-23 (8 x 5 stars) **R-5 EF-40. Very Rare major variety.** Deep green toning. In lucite holder.

Lot No. 1772

UNCIRCULATED 1800 DOLLAR

- 1772 1800 Bolender 19. Die flaw near border between first star and date. Rev. "AMERICA." **Brilliant Frosty Unc.,** mediocre strike (stars sharp, centers less so); dipped long ago, beginning to acquire faint golden (obv.) and honey color (rev.) peripheral tone. Ex Ivy Auction at \$5,500.00. One for type collectors.

1765

1767

1769

1775

- 1773 1800 AMERICA I, B-19, VF-25. Strong VF, mild grey tone, small rev. rim nick at 3:00.
- 1774 1800 AMERICA I, B-19, Sharp VF-30, Quite bold, an impressive example of this interesting variety. Light brown peripheral tone.
- 1775 1802 B-6, EF+. A series of light obv. scratches mar an otherwise beautiful piece, crowding the AU level. Strong hair detail, natural lavender tone. **PLATE**
- 1776 1803 B-6, Choice Toned EF-40. A lovely original example of the date. Excellent surfaces, graced by green and mostly lavender hues.

1836 GOBRECHT FLYING EAGLE DOLLARS

Lot No. 1777

- 1777 1836 Gobrecht. Name on base, starry Rev. **Second Original Issue**, March 31, 1837 (600 coined); *dies aligned head-to-head, so that when the coin is turned (keeping Ms. Liberty upright), the eagle still flies, in Mint Director Patterson's words, "Onward and Upward."* **A regular issue, not a pattern**, struck after coinage had been authorized at this weight! Originally a Proof, this got into circulation; now EF, indications of polishing in Obv. fields, several Rev. rim dents.
- 1778 1836 Gobrecht. Name on base. **Early restrike**: Rev. die not cracked; faint slanting mark from upper edge of wing pointing between AT; dies aligned at an angle to head-to-head so that eagle is horizontal as in the 1856-58 cents. Dark gray toned Proof, Obv. partly cleaned and polished long ago to eliminate various minute nicks and other defects, Rev. much better.

NEW FIFTH (1977) EDITION
UNITED STATES LARGE SIZE PAPER MONEY
by William P. Donlon
Revised & Published by A.M. & Don Kagin

184 PAGES PROFUSELY ILLUSTRATED WITH UP-TO-DATE PRICES

autographed by A.M. and Don Kagin • soft cover \$3.95 • hard-bound library edition \$8.95

1975 Edition \$3.50 - BOTH 1977 & 1975
(excellent for price comparison) only \$5.95

- 1779 1836 Gobrecht. Name on base. **Early restrike**, as preceding; dies aligned at an angle to head-to-head so that eagle is horizontal as in 1856-58 cents. Formerly Proof now Ex. Fine with a rim bruise on either side; slight honest wear, possibly as someone's pocket piece, or spent during the 1893 panic.

Lot No. 1780

- 1780 1836 Gobrecht on base. **Late restrike**: Rev. cracked through bases of OLLA and tops of NITED STATES O; the slanting mark from upper edge of wing pointing to AT is gone, but there is now another one from upper edge of wing pointing to O; dies aligned at an angle to "normal" position so that eagle is horizontal as in 1856-58 cents. **Brilliant Proof**, scattered faint hairlines; partial Obv. knife-rim. The very best Proofs seem to be from this batch, both dies repolished. It is not known how many were made or, as yet, whether the earlier or later restrikes are rarer. This is the first time three of the four known issues of 1836 dollars with name on base have ever appeared together in the same auction!

Lot No. 1781

1838 GOBRECHT DOLLAR

- 1781 1838 Gobrecht Dollar. Usual type, starless Reverse, reeded edge; eagle flying horizontally. Bright, cleaned Proof, sharply struck except at some stars at right. Three tiny contact marks in r. Obv. field, few other signs of handling. Die rust below elbow; crack through tops of ITE, as on many other 1838's, but this is better quality than many of them.

LIBERTY SEATED DOLLARS

1840-1865 Struck Without Motto; 1866-1873 Have Motto Added

- 1782 1840 EF-45. First year of the series, popular. Details warrent AU, but surfaces lack original luster, due to old non-damaging re-toning.
- 1783 1840 EF-40; 1841, lightly cleaned EF-40; 1842 VF-30.
- 1784 Part Set: 1840-42-45-48-50-53-56-59-67-69-71-73. Fine to Very Fine. Popular and increasingly difficult to assemble. Nice appearing lot. Excellent start.
- 1785 1841, 46-O, 47, 57, 62 Fair (well-worn) or damaged.
- 1786 1843, 46, 50-O, 55, 59-O-S, 60-O, 63, 64,, 65, 66, 68, 70, 72 P&S. Good-Very Good, some scarce dates.
- 1787 1841 & 1846-O. Very Fine pair.
- 1788 1845 & 1849. Fine pair, Scarce.
- 1789 1846-O Extremely Fine, two tiny edge nicks, Scarce.
- 1790 1847 Choice Borderline Unc.-AU-55+. Under a glass, light field handling marks are evident, though the sharpness, and frostiness support Mint State.
- 1791 1847 AU-50. Mostly Brilliant, some P-L, slight staining.
- 1792 1848 Near EF-40-VF-35+. Popular date, 15,000 minted. Lightly cleaned.
- 1793 1849, 1860, 1861 Average Extremely Fine.

Lot No. 1794

EXCEEDINGLY RARE 1853 PROOF DOLLAR

- 1794 1853 From the same dies as all other Proofs seen to date: patch of die file marks from rocky base above 53; rev. of 1862. Brilliant, irregularly, attractively toned Proof, many die striations as made, parts of wing and leg unevenly struck as always with this date. One of only 12 struck in 1862 or early 1863, first reported in the McCoy Sale in May, 1864, and known ever since then as an extreme rarity — **the rarest of all Proof Liberty Seated Dollars!** Of the 12 struck, to date **we have been able to trace not over seven different ones**, one of them in Philadelphia estate, others in scattered auctions, most recently sold being Ely-Garrett-Johns Hopkins coin at \$8,500. to "X", March, 1976; present coin ex Ostheimer, Merkin Sept. 1968:350.

Lot No. 1795

1854 PROOF DOLLAR

1795 1854 **Brilliant Proof**, obviously dipped; tiny spot at rim above head, field contact mark below feather tip. *From same dies as all other 1854 Proof Dollars: triangular mark (part of serif of misplaced 4?) below rocky base above space between 54. Less weak at wing than are most of these.* To these eyes, has a slight edge over the Ely-Garrett Coin at \$3500., and a much greater edge over that in the 1974 ANA sale at \$3,750. It is unlikely that as many as 24 survive of this great rarity, of which at least three and possibly as many as five are impounded and three others impaired. Grossly undervalued.

Lot No. 1796

1796 1855 **Brilliant Proof**, touches of gray tone, old spot over first A of AMERICA; Obv. few light scattered hairlines in one area, Rev. really Choice. *From the rare second Reverse die, represented by only one other seen to date (a piece privately sold out of the Dr. Ruby Collection); unlike the 1854 Reverse normally seen, this has only first white stripe clear, and there is a die line down to E of UNITED.* Die variety aside, this is a very rare date, only a few dozen being known, many of them impaired by careless cleaning. The present coin is eminently worthy of any advanced date set, like others in this group 1853-57.

AVOID ERRORS - RECHECK YOUR BIDS!

Lot No. 1797

- 1797 1856 Brilliant Proof**, light hairlines, but overall very attractive, much more so than description makes it sound. In estimating that between 30 and 40 survive of this coin, we do it an injustice, as at least four are impounded and many of the others have been nicked, scratched, or scrubbed, placing them well below this one. The last two to be auctioned (Essex Institute: 1019 and Garrett: 274) brought \$3,200. and \$3,600. respectively.

Lot No. 1798

- 1798 1857 Brilliant Proof**, excellent match for preceding, and if anything a little better looking overall; same Reverse die (line above ITE, others from border to TES) and distinctly rarer; do as many as two dozen survive? Of these once again, four are impounded and at least a half a dozen are impaired. As undervalued as the 1854.

IT IS A FACT!

Rare COINS & CURRENCY sold by AUCTION have traditionally realized prices FAR GREATER THAN BY ANY OTHER MEANS OF DISPOSITION!

Lot No. 1799

1799 1858 Antique gold, grey, and sunset toned **Proof**; Rev. of 1859 as usual. Very attractive despite a Rev. pin scratch left of OF. At least average quality for this extremely popular Proof-only date; we have been unable to improve on the Chapman estimate of 80 coined (probably originating with Patterson DuBois, their mint contact).

Lot No. 1800

- 1800 1859 **Brilliant Proof**, light hairlines, scattered minute Obv. contact marks. From the same dies as other Proofs: recut base of 1, Rev. apparently of 1858. Quite a number of auction records between \$1000 and \$1800., the higher figure for Garrett's a year and a half ago.
- 1801 1859 **Proof**, light golden toning. Slightly mishandled (hairlines and handling marks), by no means damaged. **UNDERRATED**, as only an estimated 100-200 pieces struck.
- 1802 1859 AU-50 (bought as Unc.) Very sharp, lightly cleaned, lustrous, scarce.
- 1803 1859 O AU-50. Sharp, nearly devoid of marks, cleaned.
- 1804 1860 Brilliant Proof although it has been cleaned, some hairlines.

Lot No. 1805

- 1805** 1860 Gray and Sunset toned **Proof**, **pristine and far above average quality for these**. *Far rarer than commonly supposed; of the 1,330 struck, March 8, 1860, only 527 were sold (514 in sets, the remainder as singles), the rest melted, which puts this date into the same rarity class as the 1861-65. Rims narrower on this date than on most earlier or later dollars — as made, reason unknown. A thing of beauty.*
- 1806** 1860 Choice and Sharp About Uncirculated, lustrous, average bag marks. Scarce date.
- 1807** 1860-O **Choice BU-65. Exceptionally clean and virtually free of bag-marks!** Rare thus. Ideal for “no motto” type.
- 1808** 1860-O Brilliant Uncirculated, Proof-Like, somewhat bag-marked.
- 1809** 1860-O Brilliant Uncirculated with some Proof-Like surface, Sharp struck, usual bag marks in field although they are quite small, faint rub on head.

Lot No. 1810

- 1810** 1861 **Brilliant Proof**, dipped, lightly hairlined. Of 1000 struck, April 15, 1861, more than 600 were melted as unsold (1862), so that the net mintage is less than 400 and many of these are much impaired; these figures tell the discriminating collector more than pages of shouting “Very Rare!”
- 1811** 1862 **Brilliant Proof-60+**. Low Civil War mintage of but 550. Light hairlines. **PLATE.**
- 1812** 1863 **Brilliant Proof-60**. Low 460 mintage, light hairlines.

Lot No. 1813

1813 1863 **Brilliant Proof-60+**. Another example of this scarce proof issue.

Lot No. 1868

1868 1892-S, Borderline AU-50. Clean and wholesome; no important marks. Flat breast feathers, but much luster remains. This is the typical piece graded "Choice AU" and priced well into three figures. Apparently, nice EF 92-S's are unobtainable as less than "AU"!

Lot No. 1869

1869 1893-S, **Choice AU-55**. "King" of all Morgans, Extremely Rare in or near Mint State. **Nearly full revolving "cartwheel" luster**, incomplete only toward the centers where the light friction disturbs the luster. **Well-struck, practically full breast feathers**. Very minor handling marks, the only one worthy of note is small, almost hidden, bag mark on the lower breast. Should easily bring well into four figures, perhaps \$6,500-up.

Lot No. 1870

1870 1894-S Brilliant Proof-Like, Sharp Struck **Gem!**. Rare thus.

Lot No. 1871

1895 GEM PROOF MORGAN DOLLAR

1871 1895 Choice Brilliant Proof-65. The “KING” of Morgan Dollars. This is a **FULLY BRILLIANT, SHARPLY STRUCK EXAMPLE!** Only the faintest hairlines prevent an unqualified Gem grade, though others may not be so cautious. The 1895-P is usually the last coin acquired for the completion of the set; thus, demand has been continually on a high and increasing plain. Yet, despite the enormous recent upsurge in silver dollar activity, this coin remains relatively **Undervalued** - perhaps poised for a sudden, and impressive, price jump. This Outstanding specimen may catalyze such performance. Only 880 struck; comparatively few as Choice as this.

Lot No. 1872

EXTREMELY RARE 1895-P BUSINESS STRIKE \$1

1872 1895-P. An **Original Non-Proof** coin, darkly toned and **never** cleaned, the piece is one of a half dozen or so business strikes of the famed 1895 Dollar that have come to light in the last ten years. Comes with a certificate from RARCOA, and has been authenticated by others.

**ERRORS CAN BE VERY COSTLY
CHECK YOUR BIDSHEET CAREFULLY**

Lot No. 1874

1874 1896-O, **Choice BU-60+**. Very close to full **MS-65**. Minimum marks. Nearly full breast, unusually strong for this date. Worth a good premium.

1875 1896-O AU-50 & Choice AU-55. **Lot 2**.

1876 1900-S Brilliant Proof-Like Sharp Struck borderline (bag-mark top left) **Gem!**. **PLATE**

PERSONALIZED INVESTMENT SERVICE

Many of our auction bidders have asked us for advice on how to invest in Rare Coins. Even those who are building specific collections have wondered which dates to buy first, what condition to obtain, etc.

Many of our bidders are just "*looking for the best opportunities for investment.*"

In response to those requests we have developed the Kagin Numismatic Investment Program. There are other types of programs around the country — but this One is *Different*.

You receive the *personal attention & service of A.M. or Don Kagin* — Proprietors, NOT salesmen - who will work with you to develop the EXACT investment program that meets your particular desires.

A. M. Kagin, a Professional Numismatist & Auctioneer for over 40 years
or

Don Kagin, recipient of the *1st degree in numismatics* and now a Ph. D. Candidate *personally* service your account; make suggestions and meet your individual needs.

We are particularly noted for:

U.S. CURRENCY: We edit and publish the Donlon Catalog of Large Size United States Currency 1861 to 1923. Our *Currency Investment Program* is second to none. It includes *ONLY Choice & Superb Notes!*

PIONEER & TERRITORIAL GOLD: take advantage of the knowledge available from "*The One Writing the Book*" — Don Kagin. When the book is published, there will be fewer "bargains" available. Rarity ratings will be drastically changed on a number. Our services are available whether you wish to take advantage of our "Investment Program" in Pioneer or desire specific coins.

Other services available through this program:

- Inclusion in Keogh Retirement Plans
- Numismatic Tax Counseling
- Personal visitations
- **Personalized Program** designed to fit your individual needs (no two of our personalized investment programs are alike)

PROVEN PERFORMANCE — THE KAGIN AUCTION SALES

After conducting OVER 300 SALES, we believe we know how to obtain for you THE BEST POSSIBLE RESULTS!

1 EXPERIENCED CATALOGING — A.M. Kagin has PERSONALLY CATALOGED OVER 300 SALES. A record UNIQUE IN NUMISMATICS. Don Kagin has recently completed a course in the History and Science of Coin Processes, which necessitated STUDY AT THE U.S. MINT in Philadelphia and the FRANKLIN MINT; metallurgy as it relates to numismatics; a two-week intensive course in COUNTERFEIT DETECTION; and a course in professional photography. His “growing up in the business” has included cataloging and doing research at Northwestern University (resulting in the first Degree in Numismatics), postgraduate work at Johns Hopkins, doing research under the direction of A.M. Kagin and Paul Kagin, postgraduate work at A.N.S., Smithsonian, U.S. Archives in Washington, various U.S. mints and former private mints (ultimately leading to a Ph.D in Numismatics). Don’s wide attendance at coin conventions, auctions, research projects and “rap sessions” with leading dealers and collectors has given him an unusual insight into the present day values. Philip S. Joseph has been associated with the Kagins for over 15 years. His experience in turning out a sale has proven invaluable. Robert H. Spector and Judith Kagin Spector have been instrumental in improving the quality and photography of the catalogs. H.S. (Henrietta - Mrs. A.M. for 31 years) has been “around” for quite a while doing whatever she can to assure that the sales go smoothly. In short, WE ARE A “FAMILY CONCERN PUTTING OUR REPUTATION ON THE LINE IN ORDER TO OBTAIN THE BEST POSSIBLE RESULTS.” We expect to be around for several more generations and are dependent upon our reputation of obtaining maximum results to keep the flow of collections coming for future auctions (350th, 400th, 500th?).

2 THE QUALITY OF OUR CATALOGS SPEAKS FOR ITSELF. The photography, layout and descriptions are designed to present the coins properly so that they will obtain the maximum results. (This is where EXPERIENCE - THE PRICELESS INGREDIENT becomes essential).

3 THE COMBINED PUBLIC AND MAIL-BID SALE GIVES YOUR COINS & CURRENCY MAXIMUM COVERAGE. Our mailing list, assembled over a great many years, is constantly being brought up to date to include new buyers. Special lists of collectors who concentrate in limited fields (die varieties of Large Cents, Half Dollars, Tokens, Confederate Currency, Nationals, etc.) are carefully checked each sale to be certain they receive the catalogs which contain items that may interest them (many times, these reminders are followed-up with personal phone calls).

4 LOW COMMISSION RATES - 10% to 25% depending upon quality and quantity. Our business is exclusively “mail-order.” Secure bank vault protection (we are in a bank building) and fully insured. Check our catalogs and prices received to verify the top results that can be obtained by competent and motivated professionals.

5 THEN CALL (or write if you prefer) Art (A.M.) or Don Kagin giving a description of your collection. Don’t be surprised if the answer is “I’ll be there on the next plane.”

REMEMBER: “WE LAY OUR REPUTATION ON THE LINE EVERY TIME WE PRODUCE AN AUCTION SALE”
